## 20 Minute Response to Alarm Activations in Milton Keynes

**It is important for security companies to demonstrate an effective response to intruder alarm activations**

Twelve months ago Risk Management Security Services created a dedicated Patrol & Response Team to cover **Milton Keynes** providing a service that is second to none in terms of response times and customer service. This has proven a great success and now having established the service, we are looking to offer other companies in **Milton Keynes** the opportunity of benefiting from our local Patrol & Response Team.

All elements are supported through our own **24 hour Control Centre** in the heart of Buckinghamshire.

Our response service caters for all requirements and we use a unique method of charging to ensure there is an option for all businesses and homes.

**Our average response time in Milton Keynes is 12 minutes.**

*"Milton Keynes Rugby Club were delighted to move into their new facility at Emerson Valley, but were devastated when after only a couple of months thieves decided to break in. The good side was that we had already set up a keyholding and Response Service with Risk Management Security and the exceptional response in the night eased the problem, with them taking over the situation, getting the building secure before leaving in the early hours. We have since updated the security with internal shutters at the vulnerable areas. We wish to give a big thank you to Risk Management Security Services!"*

*John Silk, President*
